Elite Dash Camera Installation

Supported Diagnostic Port

Sample Diagnostic Port

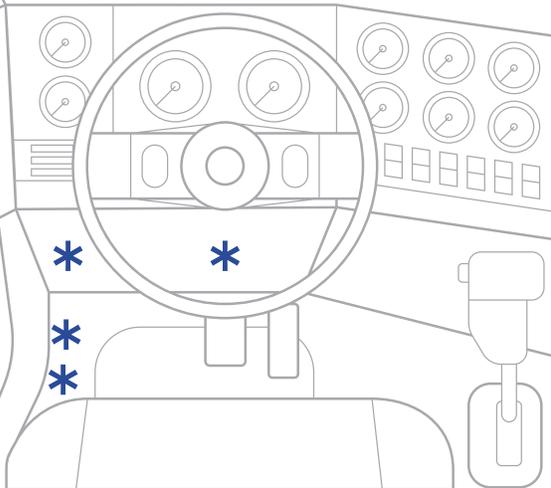

Location

Windshield Installation

Dashboard Installation

Camera Installation

- Once you have located your Diagnostic port, plug in the corresponding end of the cable into the port.
- Ensure the SD card is securely installed in the bottom of the device.
- Gently plug in the other end of the cable into the bottom of the device.
- Remove the protective film from the screen and camera lens on the back of the Elite dash camera device.

Mounting

- The Elite dash camera can be mounted on the windshield or the vehicle dashboard.
 - Eliminate any obstructions in the view of the camera mounting position.
 - Ensure adequate cable length to reach the desired mounting placement location.
- Use an alcohol wipe to thoroughly clean the surface and allow it to dry completely before moving on.
- Remove the adhesive covering from the mount and apply firm, prolonged pressure to the camera base to adhere device to the desired location.
 - Use an allen key to further tighten the camera mount.
 - Ensure to not put excess tension on the cable connections.

MORE →

Cable Management

- Tuck cable along the dash and/or use the cable clips provided.
 - Ensure to not put excess tension on the cable connections.
 - If required, bundle additional cable, being cautious not to crimp the wire. Using cable/zip ties can be helpful. **DO NOT** leave the excess cable hanging where it could be contacted or pulled during typical operation.

Verify Device Installation

- Turn the vehicle ignition to "On."
- Ensure that your camera powers on and the screen is illuminated.
- Upon startup, a preview window will appear to verify you angle/view.

You're On The Map!!!

- Log-in to RazorTracking.net or open your Razor Tracking app and start tracking.

Questions & Troubleshooting

- Call (833) GORAZOR
 - Select option 2
