

# RAZOR TRACKING

## Premier Tracker Installation

## 1. Locate The Diagnostics Port

- Usually located under the steering console (see the asterisks (\*) on the diagram to the left for potential Diagnostic Port locations)

## 2. Cable Installation

- Y-Cable Installation
  - Remove the vehicle's existing Diagnostics Port from its mount
  - Connect the vehicle's Diagnostics Port to Diagnostic Plug of the provided Y-Cable
  - Mount the Replacement Diagnostic Port of the Y-Cable to where the original vehicle's Diagnostic Port was located to allow further diagnostics without interruption of service
- Direct Cable Installation
  - Connect the Diagnostic Plug of the Direct Cable into vehicle's Diagnostic Port

## 3. Connect Your Device

- Plug in the Device Port from your cable to the Razor Tracking Device
  - Carefully align the pins, and push the attachment straight into the device until you hear it click
  - Do not push the attachment in at an angle or use too much force

## 4. Placement & Cable Management

- Run the cables and device to the desired location in the vehicle
- Ensure that the device is facing upward as stated on the device, and placed under the dash is preferred
- Secure the cables and device to ensure safe vehicle and device operation

## 5. Verify Device Installation

- Turn the vehicle's engine to "On"
- Wait for the three LEDs to be solid, if they are flashing or not lighting up, the device is not connected
  - Blue LED — Cellular service
  - Green LED — Engine data
  - Orange LED — GPS service

## 6. Look — You're On The Map!

- Log-in to RazorTracking.net or open your app and start tracking!

## Questions & Troubleshooting

- Call (833) GORAZOR, and select option 2, or visit our Help Center by clicking the  icon in the right panel once logged into Razor Tracking
